Forgot password?

Add a logo at top.

Enter phone number instead of student code

Forgot password option would be there.

Note: Once a student is logged in in the app, next time it will not ask for user id or password.

Subjects

 Mathematics

 Science

 History

 English

 Computer Science

 Art

Subject list should be dynamic. Means different students will get different subject list. The list will come from server side in json format. Also each subject will have different icon. Also the icon files will be in that json data.

📖 Unit 1: Electric charge and fields

Topic 1 ›

Topic 2 ›

Topic 3 ›

Topic 4 ›

📖 Unit 2: Electric fields

Topic 5 ›

Topic 6 ›

Topic 7 ›

🏠 📖 + ⚙ 👤

◁ ○ ▢

Also it will be dynamic, Data will come in json format from url. Each chapter will have some topics.

Topic 6

▶ Video 1

📘 **Topic 6 review**

▶ Video 2

📘 **Topic 6 review**

📋 **Mock tests on this topic**
50%

🏠 📑 + ⚙ 👤

It is not like that the video classes will be at top. The classes will be arranged in any order. Video/PDF/Text information.

When tap on the video. The video will open in another screen.

When tap on the text or pdf, also it will open in the another screen.

Last one will be mock test. I will tell you to do it in later phase, just give the message now.

In horizontal view, the screen is not scrolling. I can not goes at bottom of the page. Please make it scrollable.

It should be better if you make every page scrollable.
